

One-pager - spot AI claim risk - Spot AI claim risk at work

Promise: Spot when an AI answer is overconfident or unsupported before you act on it at work.

One-pager - spot AI claim risk

- ☐ Promise: Spot when an AI answer is overconfident or unsupported before you act on it at work.
- ☐ Outcome: Mark one AI answer with a clear trust decision and one next check.
- ☐ Steal this frame: Claim -> Evidence -> Owner -> Trust call (act / verify / discard) -> Next check
- ☐ When it matters: client email, pricing, policy, anything you own if wrong.
- ☐ Do today: open one real AI answer and complete the worksheet once.
- ☐ Want the guided practise? Take the Practical Skill on Aix Advance.
